### Abstract of JP2003287035

**PROBLEM TO BE SOLVED:** To provide a thrust needle bearing wherein long longevity is secured even when a lubricating condition is bad.

**SOLUTION:** To abrasion resistance is improved and to the long longevity of the thrust needle bearing 10 is secured as surface roughness of raceway surfaces 11, 12 on which a roller 13 rolls is made 0.4 [ $\mu$ ]m or less measured by a cutting level differential R [ $\Delta$ ]c.
